

## INDEX OF TREE-RING DATED BUILDINGS IN ENGLAND NATIONAL LIST approximately in chronological order, revised to VA51 (2020).

© Vernacular Architecture Group 2021

These files may be copied for personal use, but should not be published or further distributed without written permission from the Vernacular Architecture Group. Always access these tables via the VAG website. Unauthorised copies released without prior consent on search engines may be out of date and unreliable. Since 2016 a very small number of construction date ranges from historical sources have been added. These entries are entirely in italics.

Before using the index you are recommended to read or print the *introduction and guidance*, which includes a key to the abbreviations used on the tables.

### 1400 -1449

Place holder	Felling date range	County-historic (later)	Placename	Address	VA ref; HE ref; (other ref)	Description / keywords	NGR
1400	1399 /1400	Berks (Oxon)	Harwell	Abbey Timbers, Broadway Hill	<i>MPHE HAR-C</i>	3-bay cruck range with 2 bay open hall. Large panel wall frames. Cruck truss T2 has elbowed blades, arch-braces to cranked collar, type C apex. T3 has tenoned collar, saddle, short braced king post (type F3). Single tier of side purlins, ridge plate.	SU 490887
